

European  
Commission

# From Farm to Fork

The European  
Green Deal

December 2019  
#EUGreenDeal

European food must remain safe, nutritious and of high quality. It must be produced with minimum impact on nature.

## In EU budget 2021-2027

> **40%** of Common Agriculture Policy should contribute to climate action

> **30%** of the maritime fisheries fund should contribute to climate objectives

In spring 2020, the Commission will present a **Farm to Fork Strategy** to:

make sure Europeans get affordable and sustainable food

tackle climate change

protect the environment

preserve biodiversity

increase organic farming

## Farmers and fishermen are key to managing the transition

The European Commission will work with Member States and stakeholders to:

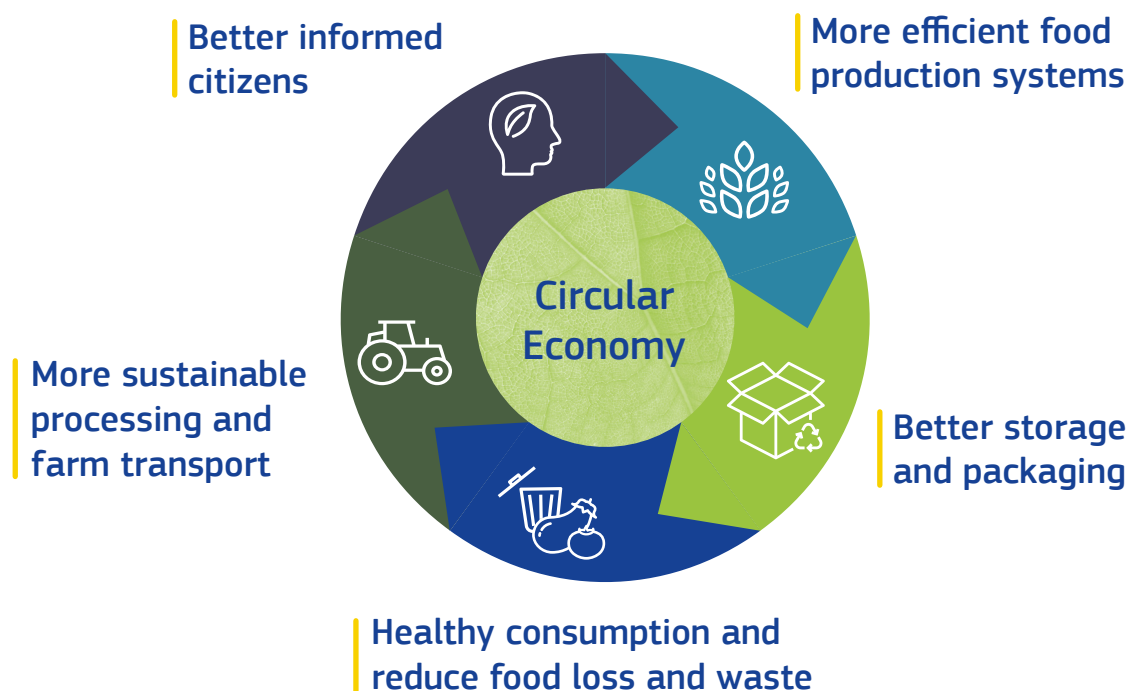

- **Ensure the transition is fair and just** for everyone working in the European agricultural and maritime sector;
- **Reduce** significantly the **dependency, risk and use of chemical pesticides**, as well as of **fertilisers, antibiotics**;
- **Develop innovative farming and fishing techniques** that protect harvest from pests and diseases.

Farm to fork will also help **combat food fraud** by preventing, detecting and fighting it through coordination with Member States and non-EU countries.

**Imported food products** from third countries must **comply with the EU's environmental standards**.

## Farm to Fork will contribute to achieving a circular economy – from production to consumption:

- Working with Member States is key: national strategic plans for agriculture should fully reflect the ambition of the European Green Deal and the Farm to Fork Strategy.
